Hi Dt Phayer

Seems like you wasted no time sending out your Video Request out to Ring Users which is awesome!! Again this will be a new email this ring users receive so I definitely recommend pairing this with a LE Post through the Neighbors Feed side.

The LE Post will:

1) Put context behind the email going out to Ring Users, reassuring them that you do have an ongoing investigation and you need their help. (Ring Users will only see this email IF they captured video between your selected time span)

2) The LE Post will go out to Ring users and Neighbor by Ring users (NBR). NBR users most likely are using third-party camera that could have captured video pertaining to this incident so you are grabbing their attention on this and asking to share their video with you directly via email.

Example Post:

**Title:** Maywood PD Needs Your Help!

**Address:** Enter in the exact location of where the crime took place(Exact address will never be shown to the public)

We need your help to make our communities safer.
